

# FUMEVAC FV-225-3

## SPECIFICATIONS

|                  |  |
|------------------|--|
| Models:          | 6.75HP   240V   21A   50-60Hz<br>6.75HP   460V   11A   50-60Hz<br>6.75HP   600V   8.5A   50-60Hz |
| Max Flow:        | 400 CFM  |
| Max Vacuum:      | 145" H <sub>2</sub> O  |
| Filtration Area: | 225ft <sup>2</sup> , 99.9% at 0.5µm, 80/20 media   |
| Noise @ 5':      | 68 dB  |
| Weight:          | 500 lbs  |
| Dimensions:      | 18.375" w x 43.75" h x 40" d   |

## A PORTABLE, MULTI-FUNCTION UNIT FOR YOUR WELD FUME EXTRACTION NEEDS

FumeVac FV-225-3 offers multiple options to control pollutant emissions. Capture welding fume with vacuum assisted MIG guns or with extraction nozzles are just a couple of examples. The FV-225-3 can either be used as a mobile unit or as a vacuum source for a small network, up to two guns. Filtered air can either be recirculated back to the workspace or exhausted outside. The functional design enables each turbine to work separately at a very low noise level. FV-225-3 is unique with its source extraction performance, as well as, the quality of its engineering.

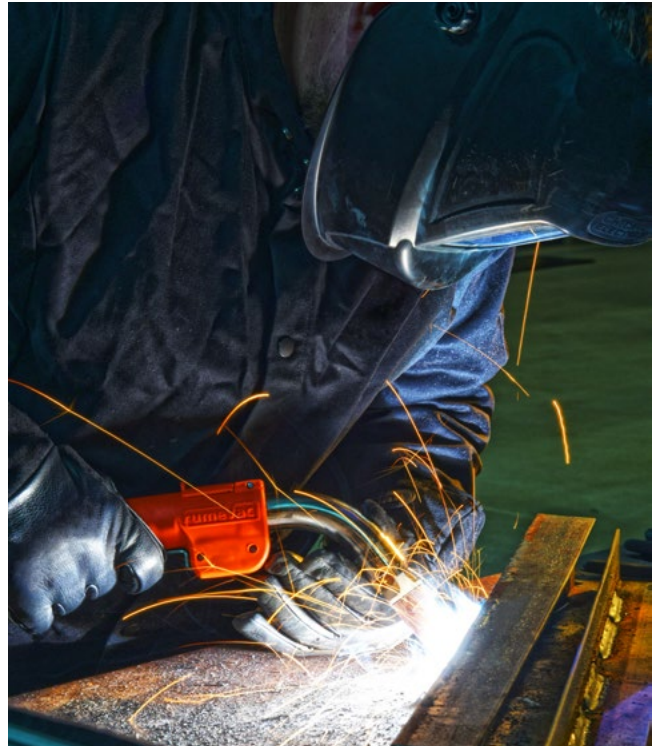

## FEATURES & BENEFITS

- Filter efficiency: 225ft<sup>2</sup>, 99.9% at 0.5µm, 80/20 media
- Designed for fume and dust extraction up to 125+ CFM at gun
- Can be used as portable or central unit for a small network of up to two guns
- Filters air for recirculation, either back into the work space or outside
- Low noise level when operating – 68 dB @ 5'
- Hour meter for tracking maintenance
- Remote starting weld current sensors available
- Heavy-duty casters for easy maneuvering
- Manometers
- Filter life indicator
- Remote start 0-5h delay switch
- 1-2" and 1-3" inlets, with 4" outlet

## PARTS & ACCESSORIES

- 400A & 500A ErgoMax MIG guns
- ErgoMax MIG gun options for multiple wire feeder brands
  - Lincoln, Miller, Tweeco, and more
- Hose options
  - Superflex or Heavy duty
- Replacement filters
  - Primary (80/20 media)
  - Secondary (Spunbond Poly MERV 16)
- Remote starting using weld current sensors
- Hose cover
  - Leather or Kevlar
